ALTIVS IT RECEIVES CERTIFICATION IN THE GOVERNANCE OF ENTERPRISE IT

Altius IT becomes one of less than 500 to receive certification for governing enterprise IT systems (CGEIT)

Santa Ana, CA – Altius IT has been awarded the coveted Certified in the Governance of Enterprise IT (CGEIT) designation.

“Many of our risk assessments and audits involve large and extensive enterprise wide systems – many of which require us to take a deeper look into not only how the client can more effectively manage their risks but also how they can more effectively govern and manage their entire system. We are proud to be one of the few firms to have received this designation,” says a former president of Altius IT.

About CGEIT (Certified in the Governance of Enterprise IT) Certification The Certified in the Governance of Enterprise IT (CGEIT) certification process has been specifically developed for professionals who have a significant management, advisory, or assurance roles relating to the governance of IT. This designation has only been awarded to less than 500 professionals. The CGEIT Certification is awarded through ISACA. ISACA is leading global organization for information governance, control, security and audit professionals. Its IS auditing and IS control standards are followed by practitioners worldwide.

Altius IT is a risk management and security assessment firm that provides comprehensive risk assessment services that focus on all three critical risk factors including technology, people and process. In addition to focusing on all critical risk factors, Altius IT provides risk analysis and customized, prioritized risk response plans to ensure complete and effective risk management for client organizations. Altius IT is headquartered in Orange County, CA.
